

NEWS RELEASE – City of Cottonwood, AZ

For Immediate Release

Date: February 4, 2016

Contacts: Roger Biggs 340-3307 rbiggs@cottonwoodaz.gov

The Arizona Department of Environmental Quality has completed their comprehensive inspections of the City's six potable water systems. The ADEQ Inspector found no violations and stated that the systems were professional, sanitary and operated in compliance with all applicable local, State and Federal regulations. Mike Traynor, Superintendent of Water Operations accompanied the State Inspector to each of the City's 23 operational well sites over a 2 day period. The system wide inspections conducted every three years verify 42 specific requirements per site covering operations, personnel, sampling, regulations, security, treatment and emergency procedures.
